

## Practice Overview

Since our establishment in 1985 we have remained committed to providing trust and comfort as well as quality care to our patients. Our physicians are highly specialized with years of experience and knowledge to provide the patient and their family support through the surgical experience. This office prides itself on its professionalism providing ultimate care prior to and during the recovery period for the patient. By providing open communication we ensure that all patients are comfortable with the decisions made about their care. We treat each patient as an individual and we are happy to spend the necessary time that is needed. We are always available for our patients. Let our dedicated physicians and staff show you our commitment to you and your needs.

### David Porudominsky, MD, FACS

Dr. David Porudominsky is a General Surgeon and a fellowship trained surgical oncologist. He has been in private practice in this location since 1985. His practice includes thyroid, parathyroid surgery, benign and malignant breast disease, abdominal surgery with minimally invasive laparoscopic techniques including gallbladder, stomach, small and large bowel with special interest in cancer surgery including skin malignancies such as melanoma and soft tissue tumors. He graduated from Cayetano Heredia Medical School in Peru in 1977 and completed a surgical residency at the State University of New York at Stony Brook program in 1982, followed by a fellowship in surgical oncology at the City of Hope National Medical Center. He completed his Board Certification in 1985.

He is a board member of ParkCreek Surgical Center and South Florida Surgical Specialists. He has been Chief of Surgery, a member of the Board of Trustees and currently holds the position of Chief of Staff at Northwest Medical Center.

### Eric Kleinstein, MD, FACS

Dr. Eric Kleinstein has been practicing in South Florida since 2001. He moved his practice to Margate in September 2003. As a Board Certified General Surgeon, his expertise and special interests are in Breast Surgery, Laparoscopic Surgery, Thyroid Surgery, Complex Hernia Repairs and Wound Care. Dr. Kleinstein is currently the Chief of Surgery at Northwest Medical Center, and sits on many various committees. He is also on the staff at Coral Springs Medical Center, University Hospital and ParkCreek Surgical Center. He is also the former Medical Director of the Wound Care Center at University Hospital.

Dr. Kleinstein attended New York University as an undergraduate. He graduated from UMDNJ - New Jersey Medical School in 1994. He began his residency at Maimonides Medical Center in Brooklyn, NY. After completing a year in research during his residency, he returned to New Jersey Medical School to complete his training. His research has been published in various journals and presented at multiple meetings.

### Rafael Sierra, MD, FACS

Dr. Rafael Sierra is a General Surgeon with advanced Laparoscopic, Minimally Invasive and Robotic Surgery Training. He obtained his Medical degree at Universidad Nacional Autónoma de México and did an internship at Tel Aviv University Sheba Medical Center. He spent two years at Tulane University doing research in advanced laparoscopic and robotic surgery. He completed his General Surgery residency at Tulane in 2010.

Since then he has continued to stay at the forefront of advanced minimally invasive surgery, including robotic surgery. In 2011 he was one of the first 200 surgeons trained in robotic single incision cholecystectomy and has performed more than 400 of these procedures.

Dr. Sierra's goal is to provide his patients with the best available surgical options for their particular problem along with compassionate care.

### South Florida Surgical Specialists, LLC

the office of Dr. Porudominsky, Dr. Kleinstein & Dr. Sierra, MD, FACS was established in 1985 and is a group practice of board certified surgeons specializing in general, oncologic, laparoscopic, robotic and breast surgery.

**General Surgery** includes a wide range of procedures usually performed in the hospital. Many procedures can be performed without the need for an overnight stay in the hospital. Some of the more common procedures are:

#### Laparoscopic Appendectomies

**Breast Surgery** for cancer including needle biopsy, breast conserving lumpectomies and mastectomies. Including sentinel lymph node biopsies.

**Laparoscopic Colon Surgery** for cancer, infection and diverticulitis.

**Laparoscopic Gallbladder Surgery** for gallbladder disease (Cholecystectomy).

**Laparoscopic Hernia Repairs** - Inguinal, ventral, incisional, diaphragmatic, umbilical, and complex hernia repairs using component separation technique.

**Soft Tissue Tumors** including skin malignancies, as well as melanoma, and sarcomas.

**Thyroid and Parathyroid Surgery** for benign and malignant diseases.

#### Robotic & Minimally Invasive Surgery

**Oncology Surgery** includes surgery of the gallbladder, stomach, small and large bowel, thyroid, breast and intra-abdominal malignancy. It also includes soft skin and soft tissue tumors.
